Hay! Straws

Hay! Straws are 100% natural and compostable, work well in hot and cold drinks and never get soggy. These straws are made from natural plant stems and are 100% biodegradable, which means they won't linger in landfills or pollute our land or oceans. They are similar in feel and function to plastic straws we've all become accustomed to, but do not leave toxins and damaging footprints on our earth. Unlike paper straws, Hay! Straws are made from a renewable source.
